contain excessive calcium or magnesium is partially responsible for kidney stone. However, saline water is not the sole reason for Kidney Stones. No reports have been received about people suffering from Kidney Stones due to drinking of saline water either in Gujarat or Karnataka.

(b) Yes Sir, in some habitations of coastal areas in Gujarat and Karnataka.

(c) The State Government have planned regional water supply schemes based on surface water sources such as rivers, canals and reservoirs etc. for providing safe drinking water under Sub-Mission Programmes. Sustainability measures like artificial recharge can also mitigate the problem.

(d) Funds allocated and released to the State of Karnataka during the last three years under Rural Water Supply Programme are as follows:—

(Rs. in Crore)

SI. No.	Years	Sanctioned and Released
1.	2000-2001	84.196
2.	2001-2002	138.617
3.	2002-2003	143.554

Meeting targets of PMGSY in Himachal Pradesh
